Memory Support

Social Environment & Engagement
Security With Dignity
Enclosed Courtyard for Garden Walks

Dignity and independence are at the heart of Homestead and none more so than for individuals who live in the Meadowlark Community for specialized memory care. The Meadowlark offers a social environment using the latest technology to provide security without loss of dignity. Residents can enjoy a variety of activities each day and evening including reading, games, visiting, baking, arts and crafts, socializing and exercise.

Social Services & Discharge Planning

Services are coordinated through one of Homestead's Social Services professionals who serves as an advocate and a resource for professional, medical or community services. Social Services help with the plan of care, service coordination, advance directives, Medicare/Medicaid benefits, among others.

Your neighbor in care.
